## ABOUT ME

I am a frontend developer and a computer engineer. I develop frontend with **React** and **JavaScript**, I also create responsive web designs with **Redux-Toolkit**, **Tailwind**, **SASS**. I create **APIs** with **Node.js**, **Express.js** and **MongoDB** and learn backend.

I have previous experience in languages such as **Java**, **Python**, **C**. I also know **OOP** and **GitHub**.

I think I am open to learning, creative and have problem solving skills.
